

IF YOU WANT TO GET 'A HEAD' CALL MUELLER® TODAY!

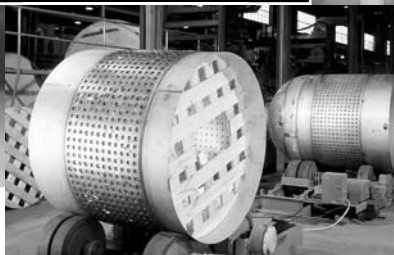

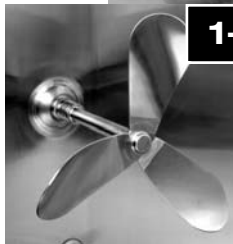

Every tank we build starts the same way... with a tank cylinder. We offer shells with or without heat transfer options, based on your needs. Add heads, manways, and agitation and you have a total Mueller® package.

We offer complete systems as well as individual components and have many heads in stock for immediate shipment.

Check out our agitation options – our patented horizontal agitator is available from 24" to 264".

1-800-MUELLER

Paul Mueller Company offers the highest quality manways, both API and non-code in high polished and non-polished conditions.

They can be furnished with a variety of gasket material which is sold separately.
